

EMPOWER IMPORT WORKSHOP

Innovative Financing of Low Carbon Technologies for Smart and Circular Cities

29th May 2019 | 09h30 – 12h30

Mercure Lisboa Almada Hotel, Almada

How to finance the energy transition process for decarbonisation? What are the models and approaches to the smart and circular cities concept?

The Local Energy Management Agency of Almada, AGENEAL, is organising this event, which aims at presenting and discussing new practices for the financing of energy efficiency and renewable energy projects that contribute to the effort of decarbonisation. In addition to this, models and different approaches to the smart city concept will be debated.

AGENDA

09h00	Reception of the participants
09h30	Opening and Welcome Catarina Freitas, AGENEAL's Executive Member of the Board
09h45 – 10h00	Presentation of the EMPOWER Project – More Carbon Reduction by Dynamically Monitoring Energy Efficiency – INTERREG EUROPE Sílvia Remédios, AGENEAL (Portugal)
SESSION 1	Innovative Mechanisms for Financing Low Carbon Technologies
10h00 – 10h20	<i>PontoEnergia</i> : The “one stop shop” for sustainable energy investment Manuel Nina, GoParity – Sustainable Development (Portugal)
