

# Reducing the cost of wind energy generation with innovative and reliable technologies

## Final Event and Networking Reception

**When:** 14 June 2016, 17:00-19:00

**Venue:** Renewable Energy House, Rue d'Arlon 63-65, 1040 Brussels, Belgium

### 17:00 - 19:00 - Designing the wind turbine of the future

17:00 - 17:10 | Welcome and introduction

17:10 - 17:25 | Improved rotor blades: quiet, durable, efficient

17:25 - 17:40 | Optimised power electronics for lower maintenance costs

17:40 - 17:55 | Smarter wind turbine controller for increased energy generation

17:55 - 18:00 | Conclusions

### 18:00 - 19:00 - Networking reception
