- International Energy Agency – Simon Müller, *HoU System Integration of Renewables*

#### 15h20 – Closing remarks

Thor-Sten Vertmann, *Estonian EU Council Presidency, Head of section Energy*

*“I.D.E.A.S” is an informal platform for advocates of demand-side flexibility to come together and exchange ideas on how to:*

- *Improve energy efficiency*
- *Develop new business models*
- *Empower consumers*
- *Address security of supply and competitiveness*
- *Support a cost-efficient integration of renewable energy sources*

*The aim of the IDEAS platform is to contribute to the development and implementation of European policies and initiatives to drive the deployment of flexible demand side resources in support of EU’s goals in energy and climate, security of supply and competitiveness.*
